

CLAUDIA MEYER

Claudia Meyer is a Swiss Artist and visual Art creator who expresses her creativity through two distinct and converging visual Art fields, one being Contemporary Fine Art and the other being “Industrial” Art inspired by new realism. Early on Claudia Meyer trained as a graphic designer at Hochschule für Gestaltung and Kunst in Luzern, and spent a year in Stuttgart, Germany where she made the acquaintance of Anton Stankowski, the grand master of the German design with whom she had the opportunity to work with as a graphic artist. Later on, she moved to New York City where she acquired a silk-screen printing major and received several prizes while studying fabric design and modern technology at the Fashion Institute of Technology, State University of New York. Since then she has been focusing full time on creating contemporary Art using technology, mixed media materials and nature as her main source of inspiration. Claudia Meyers unique and original artwork is exhibited in carefully selected Art Galleries, Public and Private Institutions, Corporate and Private collections, Art Fairs, as well as being commissioned for public and private venues.
